Date: March 21, 2014

Re: **Public Informational Open House March 31st – 6:30 p.m. to 7:30 p.m.**  
2014 Street and Utility Improvement Project

You are invited to attend an Informational Open House regarding the above project on **Monday, March 31, 2014 from 6:30pm to 7:30 pm** in the Council Chambers at Circle Pines City Hall, 200 Civic Heights Circle. This is the second informational meeting for residents on the project. A map showing the project area is enclosed.

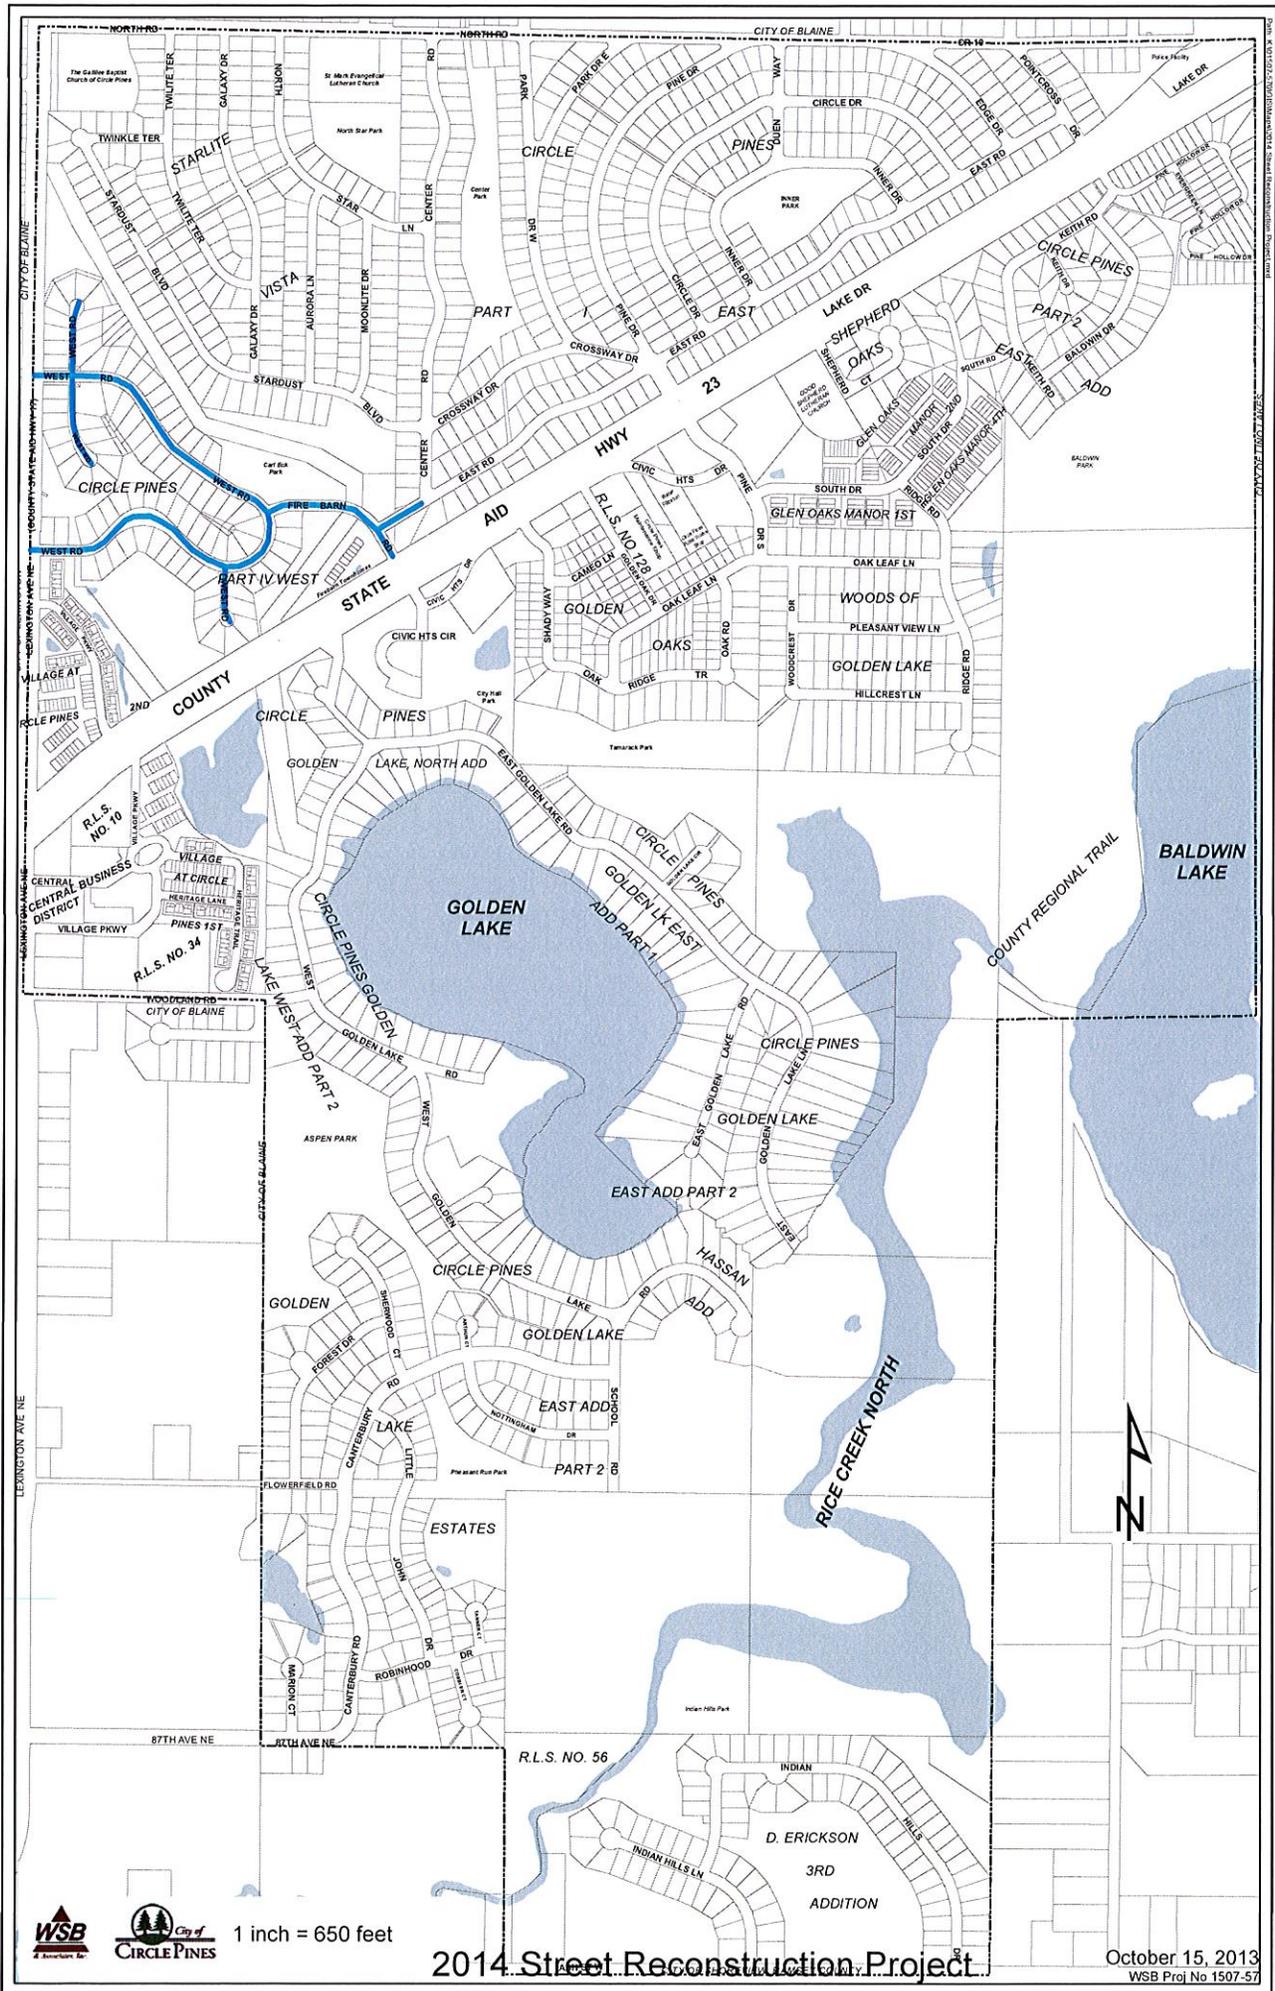

The proposed improvements are as follows: removal and replacement of bituminous pavement with subgrade correction, curb and gutter replacement, removal and replacement of sanitary sewer and water main, storm sewer improvements and removal and replacement of the natural gas system.

The City Council authorized the preparation of final construction plans at their February 25, 2014 City Council meeting. These final plans will be available for you to view and will provide more detail on what impacts there will be to your property. City Staff and representatives from the City's Engineering consultant will be available to answer any questions or concerns you may have regarding the proposed improvements. The meeting will be an open house format with no formal presentation.

The Council will consider approving the final plans and authorizing the project to be bid at their April 8, 2014 City Council meeting. As the project moves forward, another meeting will be held in late-May/early-June, 2014 prior to the start of construction to keep you informed of the construction schedule and to meet with the construction observer and contractor.

If you are unable to attend the open house, you will find information on our website under Street Reconstruction, 2014 Reconstruction Project.

We look forward to seeing you at the Informational Open House on March 31, 2014. If you have any further questions regarding this meeting, please feel free to call City Hall at 763-784-5898.
