Re: **Construction Schedule**
2015 Street Improvement Project – Mill and Overlay

The City Council awarded the construction contract for the 2015 Street Improvement Project at their regular Council meeting on June 9, 2015. The project was awarded to the low bidder, Midwest Asphalt Corporation. An informational open house regarding the project was held on Wednesday, June 24 at Circle Pines City Hall. While it was not possible for everyone to attend this meeting, we are sending this letter to provide information that was discussed at the open house. This notice includes an update on the construction schedule.

The Contractor plans to start on work in the mill and overlay area in early August. The tentative schedule for the work is included below:

1. Curb removal and replacement – early August
2. Mill bituminous pavement – mid-August
3. Storm structure improvements and adjustments – mid-August
4. Paving – late August
5. Clean-up and punch list – late August or early September

These dates are subject to change and are weather dependent.

Since the Contractor will not begin in the mill and overlay areas, we will not send weekly updates until later in July.
