

2025 Street Rehabilitation Project Weekly Update

Current Events – Week of June 9 through June 13, 2025

- Village Area:
 - Crews are finishing reinstalling the brick pavers around the sidewalk and curb work.
 - Crews are wrapping up this area and will return later this summer for any remaining punchlist or cleanup items.
- Golden Lake Area:
 - Crews will removed curb and driveways. Curb and driveway replacements are scheduled for Thursday and Friday, weather dependent.

Future Events – Weeks of June 16 through June 20, 2025

- Golden Lake Area:
 - Crews will continue with curb and driveway replacements.
 - Crews will patch bituminous pavement and restore yards around curb and driveway replacements.
- Oak Leaf/South Drive Area:
 - Crews will reclaim Golden Oak and the Public Works parking lot. Reclaiming is a process of grinding up the existing pavement and base material into gravel. The gravel is compacted into a drivable surface and will remain gravel until crews come back to pave the road later this summer.
 - Sanitary sewer will be installed on Golden Oak between Cameo Lane and Civic Heights Drive. Work will take up most of the street, use alternative routes for access.

Please note: The tentative schedule provided is subject to change due to inclement weather or subcontractor availability.

Tips of the Week

- Please follow the signs and instructions on any notices that are distributed.
- Please use caution around construction equipment and materials. Follow the traffic control signs that are in place on the project. Please drive slowly, the workers' and the residents' lives depend on it.
